BHARAT SEVA SAHAKAAR FORUM

The objective of societies should always be the welfare of its citizens! But unfortunately, suspicion, helplessness, and frustration control our daily lives and have become so common that we don't take a second look.

What if, we change this!

What if there is someone to support us, what if there is another shoulder to stand by our side, what if there is another heart to share our concern, what if there is another brain to solve our problems, what if there are a group of people to add to our strength, what if we have enough hands to move mountains!

BSSF exactly does this. **BSSF** currently has 1,12,860 members and every active member of **BSSF** is there to support you in times of need! As an NGO, **BSSF** ensures that every citizen is protected and his welfare is attended to. Our forefathers have drafted the constitution to build our country and provide to with its citizens the best civic life on par with the best country out there. Let us come together to realize this objective and **BSSF** is with you in every step towards this pursuit!

Our Journey So far

Formerly **Basavaraj Srinivas Service Front** started its journey in 2008 with an intention to serve the poor and needy. We did lot of Charitable activities since then. way back in 2008 he started his service in the name of **Basavaraj Srinivas Service front** and relentlessly worked for poor and needy. He initially concentrated on education and health of students. His initiative of constructing government school building and toilets in many schools for the hygiene of students were widely appreciated. He distributed books, blackboards and motivated students to plant tree in large numbers. Apart from his, he was instrumental in construction and development of temples which were in dilapidated condition. He donated granite to more than 120 temples for flooring and the temples were developed under his guidance. He even donated granite to burial grounds to develop them. Last year the global pandemic brought unprecedented misfortune to the common man and with sheer determination and dedication, we started focusing on helping the common man and the needy through distribution of essentials, food items, groceries, masks, face shields and sanitizers. As the service progressed, we felt that serving the common man in itself is not sufficient and it is imperative that we direct our attention towards the frontline warriors of our society, namely the police personnel, doctors and medical staff, GHMC staff, press and media personnel and all those who risked the disease in their line of duty. It therefore had become our earnest responsibility to serve these warriors with all the resources that are at our disposal. **Shri Basavaraj Srinivas** had spent lakhs of rupees from his own personal savings to distribute whatever is necessary and whenever it was necessary.

BSSF has been serving the society continuously by distributing material to the required communities without missing a single day right from 23 March of last year. We have served the following departments so far :

**GOVT. HOSPITALS | POLICE DEPT | GHMC STAFF | WATER WORKS
RAILWAYS | ELECTRICITY DEPT. | BANKS REVENUE DEPT. | MEDIA
PRINT & ELECTRONIC | ENDOWMENTS**

We have provided Monetary Contributions to :

We now endeavor to primarily support farmers, armed forces, and youth, However, we are tying up with multiple NGOs and we will be coordinating and engaging with them to support any issue or problem that **BSSF** members face.
